Java

```java
class Solution {
    public int maxNumEdgesToRemove(int n, int[][] edges) {

    }
}
```

JavaScript

```javascript
/**
 * @param {number} n
 * @param {number[][]} edges
 * @return {number}
 */
var maxNumEdgesToRemove = function(n, edges) {

};
```

C++

```cpp
class Solution {
public:
    int maxNumEdgesToRemove(int n, vector<vector<int>>& edges) {

    }
};
```
